Leadership Snapshot

Drives enterprise learning strategy by pairing LMS governance with agentic AI automation that accelerates diagnostics, content operations, and analytics for executive decision makers.

Impact Highlights

- Entrust: Ran 10k+ user Docebo platform; integrated Workday/Salesforce/QuickSight/LinkedIn; reduced incident MTTR by 38% and increased completions by 22%.
- Medidata: Launched Docebo with SSO/RBAC, admin enablement, and adoption analytics tied directly to Sales pipeline health.
- PipelineOS (Founder): Human-in-the-loop DevOps control hub turning strategic intent into governed delivery pipelines using provider-agnostic AI adapters.

Signature Programs

1. EPIC 2025: Modernizing Montefiore scheduling with SQL Server, FastAPI, Next.js, RBAC, telemetry
2. PDE/IPDE: AI-augmented VS Code extension producing repos, tests, CI, docs, and review gates.
3. Agentic AI Integrations: Designed ChatGPT/Gemini/Claude workflows for diagnostics and comms.

Core Capabilities

- LMS strategy, governance, and modernization roadmaps
- Compliance privacy controls, SOC2 audit readiness
- Incident response, vendor management, SLA stewardship
- Executive analytics, KPI storytelling, enablement
- AI-assisted automation for productivity and insights

Technical Savvy

Docebo | SuccessFactors | Workday | SumTotal | Canvas | Cornerstone

Microsoft 365 | Google Workspace | SharePoint

Tableau | Power BI | Amazon QuickSight

JavaScript | HTML/CSS | SQL | REST APIs | Postman

ChatGPT | Gemini | Claude | Custom LLM adapters

Experience Overview

Entrust (2022-2025) | Medidata (2020-2022) | Success Academy (2019) |

Boehringer Ingelheim (2016-2018) | Montefiore (2015-2016) | American Express (2012-2015)

Education

New York Code + Design Academy - Software Engineering Bootcamp (2018)
